

Many applications offer the following daily problem: suddenly you are dealing with two couplings, two plugs or variously coded connectors. Through the use of adapters for M12x1 round connectors, incompatible mating parts can be quickly interconnected saving space and costs.

The M12x1 adapters are a new solution to an old problem!

M12x1 adapters

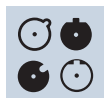

Free choice of combining straight M12x1 coupling and plug

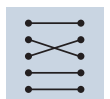

Available in 3-, 4- and 5-pole version

Different A- or B-coding on both sides possible

Cross-over wiring within the adapter on request

Dust- and waterproof according to IEC 60529
